

**Laundry equipment**

Washing machine

PW 6321

**Performance specifications**

Load capacity: 32 kg  
Drum volume: 320 l  
Spin speed: 300-1000 rpm  
g-factor: 448

**Control system**

Freely programmable Profitronic M control system  
Profitronic M with 16 fixed programmes and 183 vacant programme slots  
Large graphic display  
Multifunction selector  
User navigation in local language  
Programme sequence indicator  
Temperature display  
Delay start facility  
Serial interface  
Smart card reader

**Drive**

Frequency-controlled drive

**Features**

Special heater elements  
Dump valve flanged directly onto suds container  
Hot-, cold- and raw water connection  
Connection for Water recycling

**Heating**

Options: Electric, gas or steam (direct/indirect)

**Dispensing technology**

Five-compartment detergent dispenser in machine front

**Wash technology**

Gentle start mechanism  
Graduated spin  
Interim spin

**Design**

Scoop-and-Ladle technology  
Freestanding washer-extractor  
Machine front and lid in stainless steel  
Galvanised and blue powder-coated side panels  
Stainless-steel suds container and drum  
Unique sculptured honeycomb drum  
Large wide-opening gaiterless door  
Integrated plinth  
Recycling-friendly design with labelled virgin polymers  
Dimensions: H x W x D: 164 x 108,5 x 127,2 cm

**Test certificates**

DVGW (Water)  
DVGW (Gas), CE ident. no.  
Splash-proof  
EMV-CE
